DETAILED ACTION

Status of Claims

1. Claims 1-4, 7, 11, 13-14 been canceled by applicant.

Response to Arguments

2. Applicant's arguments with respect to claims 5-6, 9-10, 12 and 15 have been considered but are moot in view of the new ground(s) of rejection.
3. With respect to applicant's argument that Frey et al. fails to disclose or suggest the distribution feature recited in Claim 8. Frey et al. teaches distributing the files to a removable storage device or sending the files to an email address (Column 5, lines 10-12).

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

5. Claims 5-6, and 9-10 are rejected under 35 U.S.C. 102(e) as being anticipated by Molldrem, Jr. (US 6,985,673).

Regarding Claim 5:

Molldrem teaches a method of purchasing a portable digital storage media from a digital image forming device, comprising:

- selecting a portable digital storage media type (Column 11, lines 3-6);
- selecting a portable digital storage media amount (Column 9, lines 12-15);
- charging a transaction fee (Column 8, lines 58-64); and
- dispensing the portable digital storage media (58 in Figure 2B); and

transferring a computer file from the digital image forming device to the portable digital storage media (Column 10, lines 57-61), before the step of dispensing the portable digital storage media (Column 11, lines 32-35).

Regarding Claim 6:

The method of claim 5, wherein the portable digital storage media comprises one or more of CD-ROM, DVD-ROM and CD-RW (Column 11, lines 3-6);

Regarding Claim 9:

Molldrem teaches a system for purchasing a portable digital storage media from a digital image forming device, the system comprising:

- a payment interface (30 in Figure 2A)
- a media distribution device for dispensing the portable digital storage media (58 in Figure 2B); and

a user input device (Keyboard 40, Selection Push Buttons 38 in Figure 2B) for selecting one or more of a portable digital storage media type and a portable digital storage media amount, wherein the portable digital storage media comprises one or more of CD-ROM, DVD-ROM and CD-RW (Column 11, lines 3-6); and

Wherein the media distribution device is a digital image forming device
(Computer processor 74 in Figure 3; Column 11, lines 41-49), and the portable digital storage media is one or more of CD-ROM, DVD-ROM and CD-RW (Column 11, lines 3-6).

Regarding Claim 10:

Molldrem teaches a system for purchasing a portable digital storage media from a digital image forming device, the system comprising:

a payment interface (30 in Figure 2A)
a media distribution device for dispensing the portable digital storage media (58 in Figure 2B); and

a user input device (Keyboard 40, Selection Push Buttons 38 in Figure 2B) for selecting one or more of a portable digital storage media type and a portable digital storage media amount, wherein the digital image forming device is a digital photocopier (80 in Figure 3).

6. Claim 8 is rejected under 35 U.S.C. 102(e) as being anticipated by Frey et. al. (US 6,369,908).

Regarding Claim 8:

Frey et al. teaches a system for purchasing a portable digital storage media from a digital image forming device, the system comprising:

- a payment interface (Column 3, lines 19-21);
- a media distribution device (Column 5, lines 10-17; e.g., send the files to an email address) for dispensing the portable digital storage media (Column 5, lines 21-23; CPU prompts user to remove storage device); and
- a user input device for selecting one or more of a portable digital storage media type and a portable digital storage media amount (Column 3, lines 3-6);.

Claim Rejections - 35 USC § 103

7. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 12 and 15 are rejected under 35 U.S.C. 103(a) as being anticipated by Frey et al. (US 6,369,908) in view of Nihei (US 7,098,942).

Regarding Claim 12:

Frey et al. teaches a system for transferring a computer file from a portable digital storage media, the system comprising:

a media distribution device for distributing a storage media (Step 238 in Figure 5);

a portable digital storage media read/write interface for coupling the portable digital storage media to the media distribution device (Column 5, lines 25-28 and 238 in Figure 5); and

a payment interface for accepting payment for a transaction in which the computer file is transferred from the portable digital storage media to the storage media (16 in Figures 1 and 2), wherein the storage media is paper and the media distribution device is one or more of a digital photocopier CD-ROM, DVD-ROM and CD-RW (Column 3, lines 3-6) and the media distribution device is a digital image forming device (CPU; Column 7, line 22 – Column 8, line 1).

Frey et al. does not teach wherein the storage media is paper.

However, Nihei in the same field of endeavor of image capturing and distribution teaches a capture system with two internal printers that can print images on two sheets of paper (Column 3, line 66 – Column 4, line 2).

Therefore, it would have been obvious to a person with ordinary skill in the art at the time the invention was made to have added a printer as taught by Nihei to the photo kiosk of Frey et al.

The suggestion/motivation for doing so would be to obtain a printout of the image data instead of just placing the data onto a removable medium e.g., CD, DVD, memory

card. The user may not have access to a printer elsewhere and may want an immediate print copy of the data, especially if they wish to have a tangible hard copy to show to others etc.

Regarding Claim 15:

The system of claim 12, further comprising:
a portable electronic device interface, wherein the portable electronic device interface is in communication with the portable digital storage media and wherein the portable digital storage media is controlled by a portable electronic device (Column 5, lines 25-28 and 238 in Figure 5).

Conclusion

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Fredlund et al. discloses a method for facilitating orders for image services.

9. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 2625

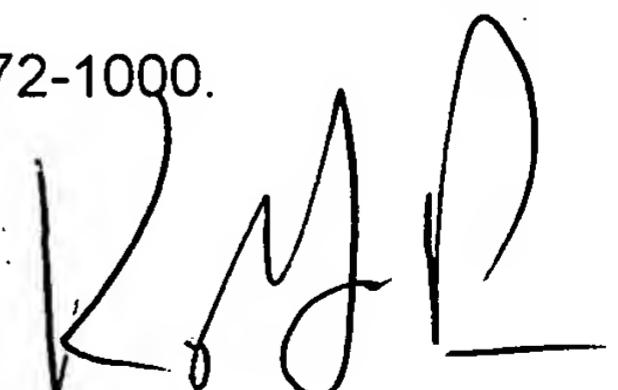

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
